## A HELPING HAND

The Jefferson City Department of Parks, Recreation & Forestry encourages people of all abilities to participate in the programs and at the facilities we offer. If a program modification will make an activity accessible for you, our staff will be happy to speak with you individually, make the necessary accommodations, and be sure that the on-site staff is familiar with the situation. Please do not hesitate to let us know how we can help you enjoy your leisure experience.

To provide a quality leisure experience for everyone, we strive to make all programs as inclusive and accessible as possible. However, we may not be able to provide all requested accommodations for all programs.
